➔ Olin News

➔ Congratulations to President Miller, who has been named the 2017 **Brock International Prize in Education** Laureate for his many contributions to the reinvention of engineering education in the 21st century.

Olin students built a **mechatronic marionette**, which is designed to be a polished, interactive art piece. A panel of buttons can control the marionette's motions.

➔ Nautilus featured a **video interview with President Miller** in which he tells the story of why and how engineering education needs to evolve, and the role that Olin has played in that effort.

➔ Recently released data from a study by Professor Allen Downey indicates that **millennials are getting married later** and, in growing numbers, may not get married at all.

➔ Olin Alumni Council Elections

The Olin Alumni Council is due to elect six new members this year! Please send thoughtful nominations to olinalumnielections@gmail.com by 11/1/2016 (less than two weeks from now) for the following positions: President-Elect, Treasurer, Class Reps for '06, '07, '10, '13.

➔ Alumni Spotlight: Share Your News and Updates

Do you have exciting news to tell? Whether you're embarking on a new adventure, growing a business, or have a personal update you'd like other alumni to know about, email a few sentences to **Alumni Relations** and we will share it in the next oLink issue. Photos and links are welcome and encouraged!

Fall Town Meeting

As part of Olin's Fall Town Meeting last month, President Miller updated the Olin community on recent developments in finances, curriculum innovation and external engagement.

Upcoming Events

Nov. 12: Fall Open House

Hear from Students

Check out the **OLINSIDER** for the scoop on life at Olin as well as the **PGP BLOG** for students' personal and professional adventures.

Step into a day in the life of **Ryan Louie '17**, who interned in Advanced Tech at Uber's Pittsburgh, PA office this summer.

→ Family Weekend... Then and Now

This month, over 220 parents and guests visited campus for Family Weekend 2016! What's changed since you were a student here? "Back to College" and Candidates' Weekend-style Design Build activities have been revamped into a "Hopper" build, where families get to discover this quintessential first-year experience, and a hands-on engineering adventure involving giant building materials.

What's stayed the same? Family Weekend wouldn't be complete without a student showcase of projects, passions and performances - and of course, quality family time.

More than 60 companies have already visited campus this fall, with an **increasing number of alumni** returning to represent their companies! Check out PGP's latest **job postings for alumni here.**
