• Be sure when you are talking about the TEAM experiences, illustrate that you understood the greater purpose/goal of the project, while also ‘sweating the small stuff’, particularly in the areas you were responsible for. Be sure your answers give a good mix of “I” and “We” – you don’t want too much of one and not the other.

• What did you learn?

G. Describe a situation in which you saw a problem and took action to correct it, rather than wait for someone else to do so.
