

NSF FastLane Registration How to Register and Receive a Password

Principal Investigators and Co-Principal Investigators must register and obtain an NSF ID and password. Please submit the following information to OSP to register and obtain a temporary password:

- Name
- E-mail address
- Business Phone number
- Department
- Highest degree and year obtained

Once OSP has created an account for the PI, Fastlane will email the NSF ID number to the PI. OSP will email the PI the temporary password. PI's can then log into Fastlane using their NSF ID, last name, and temporary password on the Fastlane Homepage (<https://www.fastlane.nsf.gov/index.jsp>). The first time the PI logs in, Fastlane will request the temporary password be changed.
