Notes about Courses at Olin

The Olin College Catalog, containing a complete listing of all Olin classes, may be found at <http://olin.smartcatalogiq.com/>

Because of faculty schedules and because Olin offers a range of classes that are team-based and project-oriented, the actual courses offered in a semester vary from term to term. For semester-specific information, please visit the **Semester Information and FAQ** page (<http://www.olin.edu/student-affairs-resources/registrar/semester-information/>) on the Olin website and scroll down to **Supplement and Course Offerings Lists**. Fall course listings are usually posted at the beginning of April and Spring course listings in late October. All course offerings and times as well as course descriptions for all Special Topics courses are in these Supplements. If the semester you are applying for is not yet posted, please look at one of the earlier ones, as that will give you a general idea of what to expect.

To help you get started, below is a list of the few courses that are routinely offered only in either Spring or Fall, plus several routinely offered every semester. Also listed are courses that are generally not open to exchange students.

Fall only

- ENGR1200 Design Nature
- ENGR1125 Introduction to Sensors, Instrumentation and Measurement
- MTH1111/SCI1111 Modeling and Simulation of the Physical World
- ENGR2110 Principles of Engineering

Spring only

- ENGR2250 User Oriented Collaborative Design
- AHSE1515 Products and Markets

Courses that are offered BOTH Spring and Fall

- ENGR3290 Affordable Design and Entrepreneurship
- ENGR2510 Software Design
- SCI12XX Biology foundation course
- SCI1410 Material Science

Courses NOT appropriate for exchange students

- SUST2201 Introduction to Sustainability
- SUST3301 Sustainability Synthesis
- AHSE2515 Iterate
- AHSE3515 Launch
- Capstone courses
- CIEXXXXX Curriculum Innovation Experiment
