Support the passion for music at Olin!(video included)

Hopefully you have had the chance to enjoy the extraordinary performances of the Olin

Conductorless Orchestra (OCO) - the only conductorless orchestra of its kind at an American college. Present and past Orchestra members, Professor [Diana Dabby](#) and so many others in the Olin community have worked tirelessly to bring a first-class music program to the college. In the true entrepreneurial spirit of Olin, Diana found a used Steinway B piano in excellent condition available at a never-to-be-seen-again price. The college seized this opportunity to enhance the Olin experience through music with the understanding that \$50,000 would need to be raised before June 30, 2015 to support the purchase of the piano, as well as its current and future maintenance. Here is a brief example of the impact of the new piano from the **OCO'S PERFORMANCE** during last EXPO.

Several faculty, staff and parents have already made gifts for the Steinway Piano Fund that total \$5,000 or 10% of the fundraising goal. **Please help keep the momentum going and make an additional annual gift to the college for the **STEINWAY PIANO FUND**.**
