We create great software. We’ve developed products for multi-billion dollar companies and for early-stage start-ups. We’ve worked with the sharpest entrepreneurs and the top VCs. We build industrial strength code from Day One, which is why the biggest names in the web world have sought our expertise. Working together, we develop applications and institute development practices that enable them to scale their businesses to meet rapidly increasing consumer demand. We bring that same level of expertise and joint development to every project we work on.

Bose Corporation
www.bose.com/careers

Company Description: Bose is a research company dedicated to developing breakthrough technologies and quality products that enrich people’s lives. To do so, we take a different approach than most companies. The result is a longstanding reputation for innovation and quality. Reaching our goals requires uniquely talented individuals with a strong desire to grow and achieve. Individuals who share the values of passion, innovation, excellence, respect and integrity that are embedded throughout our organization today. We’re looking for men and women with talents in research, manufacturing, web design, information technology, global marketing, finance, communications and more.

Codecademy
www.codecademy.com

Company Description: Codecademy is an education company. But not one in the way you might think. We’re committed to building the best learning experience inside and out, making Codecademy the best place for our team to learn, teach, and create the online learning experience of the future. We are rethinking education from the bottom up. The web has rethought nearly everything - commerce, social networking, healthcare, and more. We are building the education the world needs - the first truly net native education. We take more cues from Facebook and Zynga in creating an engaging educational experience than we do from the classroom. Education is broken. Come help us build the education the world deserves.
Cogo Labs
cogolabs.com/careers

Job Type: Full-Time

Company Description: Originally founded in 2005 as Adverplex, Cogo Labs has incubated some of the Boston area’s fastest-growing web companies.

We combine entrepreneurial business leadership with a unique platform of proprietary technologies for algorithmic marketing, data mining, and quantitative business analytics. Our fast-paced and innovative approach enables us to guide start-ups from inception to profitability and beyond.
