

HAZARD COMMUNICATION PROGRAM

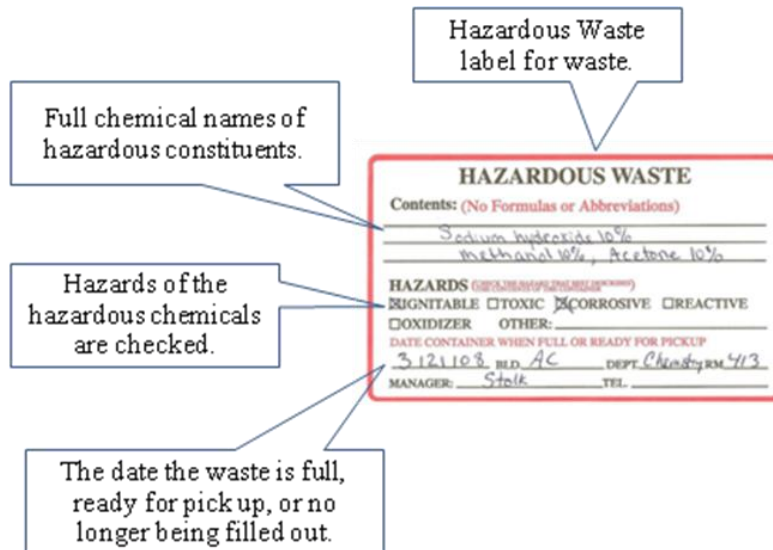

Labeling Working Containers

1. All chemical containers must be labeled with full chemical names (No abbreviations or formulas).
2. Identify the hazard which best identifies the chemical(s).
3. All chemical containers should have the date they were received or filled.

Labeling Hazardous Waste

1. All chemical waste must have a Hazardous Waste label.
2. Chemical names must be spelled out, No Abbreviations or formulas.
3. Check the hazard which best describes the chemical.
4. Date the bottle when it is full or no longer being filled.

Please contact the EH&S Office with questions, hazardous waste pick up requests, or more labels by email at mbkautz@triumvirate.com.
