

Lee Edwards '07, Venture Partner, Root Ventures

Lee is a Venture Partner with Root Ventures based in San Francisco. He was most recently CTO at Teespring, and has been angel investing since 2016. Previously Lee was a mechanical engineer at iRobot, and a software engineer at Pivotal Labs. Lee is also the driving force behind Parcel B an investment collective that invests in Olin College alumni-founded companies.

Alyson Goodrow, Director of Marketing

Alyson Goodrow is the Director of Marketing at Olin College where she is responsible for leading the college's marketing strategy in support of Olin's key institutional goals of building a qualified and diverse applicant pool, increasing fundraising and elevating Olin's external profile. Alyson joined Olin in 2006 as an Associate Director of Communication. Prior to joining Olin, Alyson spent eight years at the high-tech public relations firm CHEN PR. Alyson is a member of the American Marketing Association and is a graduate of the Susan Vogt Leadership Fellows Program. She earned a B.S. in Marketing Management from Siena College.

Sherwin Greenblatt, Olin College Board of Trustees

Sherwin Greenblatt, now retired, spent most of his career at Bose. Hired as the first employee by Dr. Amar Bose, Sherwin held the position of Project Engineer, Chief Engineer, Director of Engineering, Executive Vice President and President. Currently, Sherwin Greenblatt volunteers his time as Director of the MIT Venture Mentoring Service, which supports innovation and entrepreneurial activity throughout the MIT community by matching prospective entrepreneurs with experienced volunteer mentors who, through their advice, guidance and contacts, can boost the chances of a start-up's success. He has been on the Olin College Board of Trustees for 11 years.

Caitrin Lynch, Professor of Anthropology

Caitrin Lynch teaches in the Arts, Humanities and Social Sciences program at Olin College. Her professional experience is extensive, including an assistant professorship in anthropology at Drew University, as well as a Mellon Postdoctoral Fellowship at Johns Hopkins University among others. She has taught at the University of Chicago and the University of Illinois at Chicago and is currently a Visiting Research Associate in the Department of Anthropology at Brandeis University. She has produced documentary films and is the author of two books. Caitrin Lynch received her Ph.D. and M.A. in cultural anthropology from the University of Chicago and her B.A. in anthropology from Bates College.

Ana Krishnan '20

Ana Krishnan is originally from West Orange, NJ. She's a rising senior, currently majoring in Engineering with Computing. Ana also has a strong interest in design and sustainability. Ana is a past-president of Olin Student Government and a Resident Resource. This summer, Ana will be working as one of Olin's sustainability interns.

Jessica McCarthy, SCOPE Program Manager

Jessica McCarthy is the SCOPE Program Manager at Olin. She joined the Olin community as the BOW (Babson/Olin/Wellesley) Collaboration's Program Coordinator in 2013. Currently, she serves on the Ethics and Values Task Force and the Staff Connections Committee, and she was a member of the Interim Provost Committee and the Policies and Procedures Working Group. Before arriving at Olin, she was a Program Manager for Johns Hopkins University's Center for Talented Youth and a teacher/coach/dorm parent at a New England boarding school. Jessica earned her MA from Middlebury College's Bread Loaf School of English after graduating Phi Beta Kappa from Hamilton College.

Amon Millner, Assistant Professor of Computing and Innovation

Amon Millner is an Assistant Professor of Computing and Innovation directing the Extending Access to STEM Empowerment (EASE) Lab. His research and teaching are informed by his work in the Human-Computer Interaction (HCI) domain, drawing heavily from his specialization: developing tangible interactive systems for making and learning. He develops technology and community platforms to facilitate learners becoming empowered to make and make a difference in their neighborhoods. Amon Millner, earned a Ph.D. in Media Arts and Sciences from MIT; a M.S. in Human Computer Interactions from Georgia Institute of Technology; and a B.S. in Computer Science from the University of Southern California.

William B. Norden, Olin College Board of Trustees

Mr. Norden served as Chairman of the Olin College Board of Trustees from 2006 through 2015. He is a partner in the law firm of Seyfarth Shaw LLP in the New York office and has extensive experience in legal matters related to trusts and estates and charitable organizations. He had been a Director of the F.W. Olin Foundation, Inc. since 1988 and had served as Secretary and Counsel to the Foundation since 1983. Mr. Norden also serves on the Boards of the New York City Fire Museum and the Honor Emergency Fund of the Fire Department of the City of New York. He received his B.S. in economics from Brooklyn College in 1967 and his J.D. from the New York University Law School in 1969.

Niyi Owolabi '21

Niyi Owolabi is from Baltimore, Maryland. He is pursuing Mechanical Engineering as his major at Olin. Niyi is involved in a variety of activities at Olin in addition to his classes, including working in IT, acting as a NINJA in various courses and the Olin Workshop. This summer Niyi will Intern in the Rapid Prototyping Lab at Bose Corporation in Framingham, Massachusetts.

Lynn Andrea Stein, Vice-Chair, Presidential Search Committee, Professor of Computer and Cognitive Science

Lynn Andrea Stein is a professor of Computer and Cognitive Science at the Olin College of Engineering. As a member of Olin College's founding faculty, Lynn played a leadership role in many aspects of the development of the college. In 2009, Stein was named the founding director of Olin's Initiative for Innovation in Engineering Education. From 1990 to 2000, Lynn was an assistant and then associate professor in the EECS Department at MIT and at the AI Laboratory and Laboratory for Computer Science there. Lynn's research spans the fields of artificial intelligence, programming languages, and engineering and computer science education. She has a bachelor's degree, cum laude, in computer science from Harvard and Radcliffe Colleges and master's and doctorate degrees in computer science from Brown University.

Alison Wood, Assistant Professor of Environmental Engineering

Alison Wood is an assistant professor of Environmental Engineering at Olin College of Engineering. She is a distinguished researcher in the fields of both water and sanitation, as well as a researcher and practitioner in using interdisciplinary thinking and approaches to solving environmental and sustainability problems. Alison is also pursuing her interests in the areas of equity and justice through education and engagement with context and values. She serves as the Director of the Babson-Olin-Wellesley Three College Sustainability Certificate Program, the Director of Olin's Grand Challenge Scholars Program. She is a member of Olin's Sustainability Steering Committee, and as a member of Olin's Context and Ethics in Engineering Education Working Group.

Beverly Wyse P'15, Chair, Presidential Search Committee, Olin College Board of Trustees

Beverly Wyse has over 30 years of leadership experience primarily in the Aerospace industry. Now retired from Boeing, where she held a variety of roles including Vice President and General Manager of the 767 and 737 programs, Beverly currently serves on various Boards and is a consultant to various international companies.

In addition to her role on the Olin Board of Trustees, Beverly is also on the Board of Trustees at Heroux-Devtek Inc, a company specializing in in the design, development, manufacture, integration, testing and repair and overhaul of landing gear, actuation systems and components for the aerospace market. Beverly is also a strategic advisor in the aerospace sector to Arcadis, a multi-billion-dollar infrastructure company.
